

## **Environmental Statement**

### **Environmental Responsibilities.**

Standley Steel Stockholders aims to take responsibility for the environmental impact caused by the manufacturing, distribution, and use of the company's products.

Over time the company has and will continue to implement measures at its facilities to improve the internal and external environment, while also selecting more environment-friendly raw materials in day to day running. The sustainable manufacture of products with a long useful lifespan will continue to be an objective in the future development of the company.

To achieve this Standley Steel has chosen to include its environmental policy in the company's objectives. The following key principles shall be complied with in all parts of our business:

- Standley Steel shall be perceived as an environment-friendly company. Our business shall have as little impact as possible on the environment.
- Standley Steel aims to minimise the health risk experienced by employees in the workplace.
- Standley Steel invests to avoid damage to the environment and to health.
- Environmental information shall be freely available, either via this website or a printed copy on request..
- Standley Steel works closely with Edward Associates, a Health and Safety consultancy, who also advise on best business practice.

For more information regarding our Environmental or Health and Safety measures please contact us.
